THE RIPLEY ADVERTISER.

VOL. 38.

RIPLEY, MISS., SATURDAY, OCTOBER 6, 1883.

NO. 17.

THE RIPLEY ADVERTISER.

R. F. FORD, Editor and Publisher.

TERMS OF SUBSCRIPTION:

One copy one year, \$1.50

One copy six months, 75

One copy three months, 40

INvariably IN ADVANCE.

ADVERTISEMENTS

Inserted at one dollar per square (one inch) for the first insertion and fifty cents for each subsequent insertion.

Less advertisements inserted at the rates fixed by law.

Announcing candidates for heat or city offices, two dollars and a half; County, five dollars; District and State, ten dollars; invariably in advance.

The National Cotton Planters' Association of America will hold its annual convention in Vicksburg on the 21st of November instead of the 14th, as previously published.

The governors of the cotton manufacturing states of New England, as well as the governors of the cotton growing states, are requested to appoint two delegates from each county of their respective states. All cotton exchanges are also invited. Important plans will be determined upon at this convention to materially aid in making the World's Industrial and Cotton Centennial Exposition, to be held in New Orleans next year, a grand success.

Both the Massachusetts Greenbackers and Democrats last week nominated Gov. Benjamin F. Butler for re-election.

REVUE DE LA MODE.—This is an illustrated fashion paper and surpasses all other journals of its kind ever published. It contains from 60 to 80 cuts representing the most choice styles from the leading designers of Paris, a large colored plate and each copy contains illustrations of elegantly-trimmed hats and new forms for the benefit of milliners.

The pattern sheet gives from five to ten full-sized patterns, or some of the garments shown on the pages of the journal, \$3.50 per annum. Single copies 25 cents. Address S. T. TAX CO., Importer, 930 Broadway, New York.

Major Fannin of Apalachicola has invented a cotton tie, for which he has been offered \$100,000 by a Baltimore firm.

PETTERSON'S MAGAZINE for October comes to us in advance of all others, and more beautiful than ever. The principal steel-engraving, "An Iguanidous Flight," is after one of the most popular pictures of the last Paris Salon, and is full of humor and graphic truth. There are two sheets of colored patterns, with eight different designs: alone worth the price of the number. The colored steel fashion plate is of rare loveliness. "Petterson" is now the only magazine that gives steel fashion plates, colored by hand; all the other magazines give mere lithographs. Then there are some fifty wood-cuts, illustrating fashions, and work-table patterns of every kind. In the literary contents we find the same originality and merit that placed "Petterson" at the head of the ladies' magazines. That charming novel and love-story "A Fifth Avenue Romance," is finished, and a new and thrilling one, "The Mystery of the Broken," began. There is also a racy story, beautifully illustrated, "Philosophy in the Adirondacks." Mrs. Anna S. Stephens, Frank Lee Benedict, etc., etc., make up the other contributors. Without question, "Petterson" is, as it claims, the cheapest as well as best of the ladies' books. Its price is claim, especially, are unprecedentedly low. Specimens are sent gratis to those wishing to get up clubs. Address Chas. J. Peterson, 306 Chestnut Street, Philadelphia, Pa.

Mrs. McCurry, aged over 100 years, was baptized a few Sundays ago at Buzzard Roost, in Whitfield county, Ga.

Fearful members of the Choctaw Nation have entered Wesleyan University, Macon, Ga.

THE DEMOCRATIC NOMINEES.

Hon. Thomas Spight whose name stands at the head of the ticket will make an efficient District Attorney. The office is non-partisan and he will know no party and no man in the discharge of his duties.

Our colored people, a large majority of whom in this district are readers of the Dixie Boy, should in our judgment give him the same vote they gave Captain Fane in the two preceding elections. They see no cause to regret the vote so given and they will not if they support Capt. Spight.

HON. W. A. BORD,

the nominee for Senator has served his people with credit heretofore in the lower house and will make a splendid Senator. He was educated at our University, is a farmer thoroughly acquainted with the wants of all who till the soil and deserves the support of our whole people.

DR. JOHN Y. MURRAY FOR FLOATER received a most flattering nomination. He has long been numbered among the first citizens of Tippah, filled many places of high public trust and will not only reflect honor upon his district in the Legislature, but add additional laurels to those he has already won as a profound thinker and cultivated statesman.—Dixie Boy.

The New York Sun is for Holman, but behind Bill Holman stalks Charlie Dana.

THE EXPOSITION.

Crowds now visit the wonderful Southern Exposition, day and night. It excites the admiration of all the visitors. The extent of the displays; the variety; the admirable arrangements; the care taken for the comfort of those who attend; the special attractions in the way of music, flowers, and fireworks; all these are now doing their perfect work, and the managers are to be congratulated on a success so marked as to fully compensate them for the time and labor expended in bringing together, under one roof, the latest results of energy and ingenuity.

It is not possible to exaggerate in describing the Southern Exposition. Civils and cravats are silenced at last. The work done has been well & thoroughly done, and the results are of a character which surprises especially our friends from the North.

The influence of this industrial display is immense. It opens the South to a flood-tide of immigration and capital; it demonstrates to every thinking man the fact that the resources of the South are equal to those of any other country. It needs to be seen to be appreciated, and it gives us great pleasure to announce that it is being seen. The crowds are coming from every direction, from Massachusetts to Texas, and they say invariably that the half has not been told them.

The week beginning September 17 was Kentucky week. The Fair began Tuesday, September 18, and it is fully described in another column of this impression. Thursday the Kentucky editors were entertained by the Exposition managers, and a number of guests were invited to meet them. The occasion was one of unusual interest. September 26 is Arkansas day. September 27 is devoted to Texas. In October there will be a Tennessee day, with the Governor in attendance. Altogether, the people of the South as well as the people of Louisville have every reason to be proud of their Grand Exposition.—Home and Farm.

The report that Parnell had been shot is probably incorrect.

FACTS WORTH KNOWING.

That salt fish are quickest and best freshened by soaking in sour milk.

That cold rain-water and soap will remove machine-grease from washing fabrics.

That fish may be scaled much easier by first dipping them into boiling water for one minute.

That fresh meat beginning to sour will sweeten if placed out of doors in the cool air over night.

That boiling starch is much improved by the addition of sperm oil, salt, or a little gum arabic, dissolved.

That a tablespoonful of turpentine, boiled with your white clothes, will greatly aid the whitening process.

That kerosene will soften boots and shoes that have been hardened by water, and will render them pliable and new.

That clear boiling water will remove tea stains; pour the water through the stains and thus prevent it spreading over the fabric.

That salt will curdle new milk; hence, in preparing milk porridge, gravies, etc., the salt should not be added until the dish is prepared.

That kerosene will make your tea kettle as bright as new. Saturate a woolen rag, and rub with it. It will also remove stains from the clean varnished furniture.

IT WILL COST YOU NOTHING to get from Drs. Starkey and Palen, 1109 Girard Street, Philadelphia, an honest opinion in your case, if you are suffering from any chronic disease, Consumption, Catarrah, Neuralgia, Rheumatism, or nervous irritability and weakness. They are making wonderful cures with their new Compound Oxygen Treatment. Write to them and give a clear statement of your case. They will answer promptly as to the chances of a cure. THEY MAKE NO CHARGE FOR CONSULTATIONS. If, however, you do not wish to consult them at present, drop a postal card, asking for their treatise on Compound Oxygen, in which you will find a history of its discovery, nature, and action, and a large number of reports of difficult and desperate cases which they have treated successfully. It will be sent free.

Did You Borrow this Paper?

Readers! have you borrowed this paper of your neighbor? If so, put it down, and go straightway and subscribe for one for yourself. You are fond of reading the paper, but you haven't soul enough to pay for one of your own. You would rather sponge upon your neighbor and borrow his. Why don't you borrow the baker's loaf, or the butcher's steak or roast? You might as well do either, as to borrow a newspaper. There would be no newspaper to borrow if all men were like you; for the printers could not afford to print their papers for the benefit of borrowers, and would have to close their offices and go out of business altogether. What should be thought of a man who would make it convenient every day about meal time to drop in and set himself at his neighbor's table? You might as well do that as to avail yourself every week, of his intellectual food, without paying for it. The mail arrives at the post-office, the papers are opened and distributed, and you make it convenient to hang around and get hold of the paper and read it, perhaps, even before the owner has a chance to get hold of it. He may be too polite to repel you or deny you, but you may be sure you lessen yourself in his estimation. Get and subscribe.—Ex.

George Washington had a very bad attack of rheumatism, and the report that Parnell had been shot is probably incorrect.

Our 10 Horses we Guarantee to furnish power to 10,000 feet of Michigan Pine Boxes in 10 hours, burning slate from the sun in eight-foot lengths.

NEW YORK'S

CAS LIT LIFE ILLUSTRATED

The above is the title of a series of sketches of the shady side of life and character in the Great Metropolis, now being fully illustrated from authentic sketches in the

NATIONAL POLICE GAZETTE.

New York, which are the best and most reliable news from the city. The life of a really bad character is plain to all, and the sketches are from the pen of the most gifted journalist and critic in America, who is considered a leader in the theater and at word, John Charles Dickens. It is sufficient to say that "New York's Cas Lit Life" will present the most striking, vivid and dramatic scenes of the underworld of life in New York City that have ever been presented to the public.

The National Police Gazette of New York, is for sale by all booksellers, price 10 cents per copy, or can be ordered direct from the publisher.

Subscription price, \$1.00 per year.

The National Police Gazette of New York, has no connection with any other publication of its class, who are guilty, as far as possible, of its title and appearance.

CAUTION.—The public are cautioned against buying weak imitations of the National Police Gazette of New York, and are advised to make sure that the paper is issued in New York and has the publisher's name printed on each copy.

Honourances should be made by post office draft, drawn on New York, or registered letter, to

RICHARD K. FOX, Publisher,

Cor. Spruce and William Sts.,

New York City.
